

THE ADVENTURE FOREST / VERCORIN

The Adventure Forest is a circuit dotted with thoroughly safe obstacles (rope bridges, rope swings, zip-lines, aerial walkways, children's games) in a clearing surrounded by forest.

Obstacle courses in the trees

Suspended between sky and earth, surrounded by nature, try a tree top adventure. Charge up your batteries and drug yourself with a natural high. 6 courses with a continuous safety line and 6 zip lines test your agility, cool head, balance and poise. It's not always easy to monkey about!

Quick jump

Defy gravity on the end of a wire, drop through the air before landing softly on a platform 13 meters below: guaranteed excitement with the Angel's Jump, a free fall structure in complete safety.

Climbing wall

Look up and concentrate before attacking the equipped tree trunk of the enormous Swiss pine which holds the start of the big zip line; after finding your balance and overcoming vertigo, test your dexterity!

Scooters

It's a long way to Tipperary; it's a long way to go....

Had enough of long hikes? Hop on an all terrain scooter for the ride of your life! Race back from Crêt du Midi to Sigeroulaz through mountain roads.

Marmot trail

Just a couple of strides away from the Crêt-du-Midi restaurant, where strips of flowered grassland decorate the rocks, you might be able to observe charming balls of fur. The marmot trail, which winds down across alpine meadows and through forest clearings, reveals the world of this iconic alpine mammal. Punctuated by stop off points with information and games, it allows you to pace yourself gently down to Sigeroulaz, the starting point for the Adventure Forest.
