Hôtel - Restaurant - Wellness

Swiss Historic Hôtel & Swiss Bike Hôtel

The thick 19th-century stone walls house an especially harmonious hotel with a subtle elegance. Without an obvious show of luxury, this delightful hotel combines all the qualities essential for those special stays on which an excellent word-of-mouth reputation depends. This is no doubt because the hotel, with its rich history, has resulted from a personal labour of love, reflecting the energy and sensitivity of the couple who opened it some 15 years ago!
