

SWISS SKI SCHOOL VERCORIN

Discover the joys of skiing with professionals or simply perfect your technique for even more fun!

If you are regulars of Vercorin, you surely know us. Indeed, our director Jean-François Neurohr has been practicing his job as a ski instructor in Vercorin since 1980. After five years of experience and his ski teacher's certificate in his pocket, he has been in charge of the Swiss Ski School (ESS) of Vercorin for 20 years as director with the help of his wife Corinne.

Baptiste has always lived in contact with tourism and skiing. He quickly followed in his father's footsteps by passing his ski teacher's certificate in 2005. Then he continued his training to become an expert/trainer for teaching skiing to children in Switzerland. He is very involved in the social life of our village, living and working like his family in Vercorin.

Listening to your needs, we strive through our various offers to make you spend a good and relaxing vacation in our charming little resort.
